Jackson Wilder Buchanan

Engineering and Design Portfolio

Disclaimer - I have seven years of experience in FIRST and assume that you receive hundreds of submissions of robots, mechanisms from FRC, FTC and probably FLL. While these builds are typically a team effort, my portfolio focuses on specific mechanisms that I have personally designed and built from scratch.

Portfolio Creation

I created this portfolio using Adobe InDesign. I then exported the page as an HTML file and fixed up video embedding
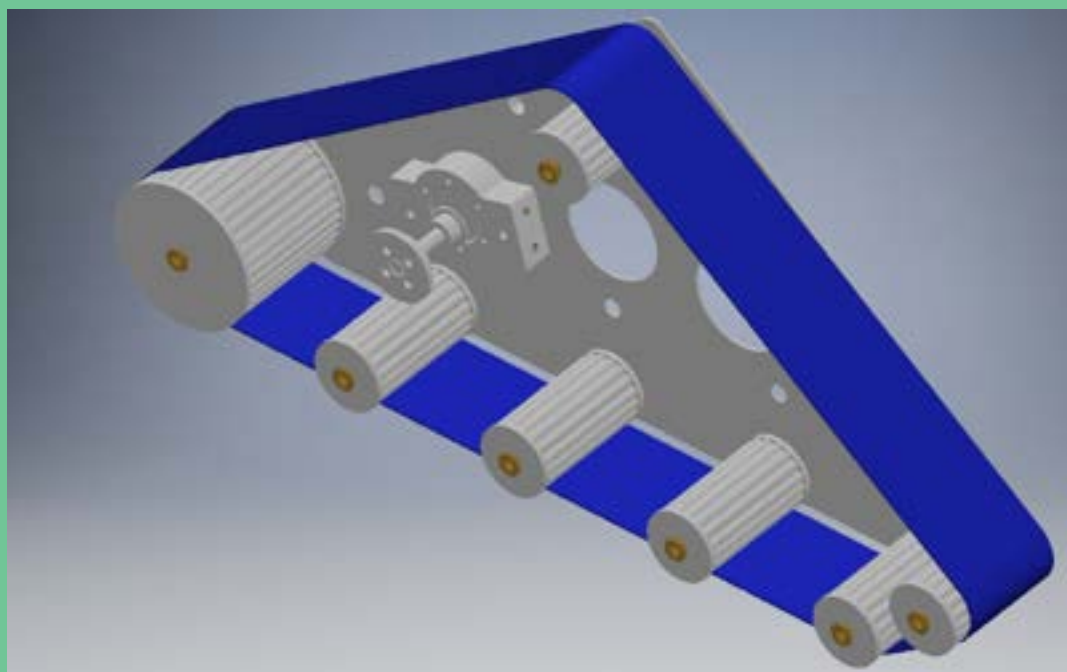

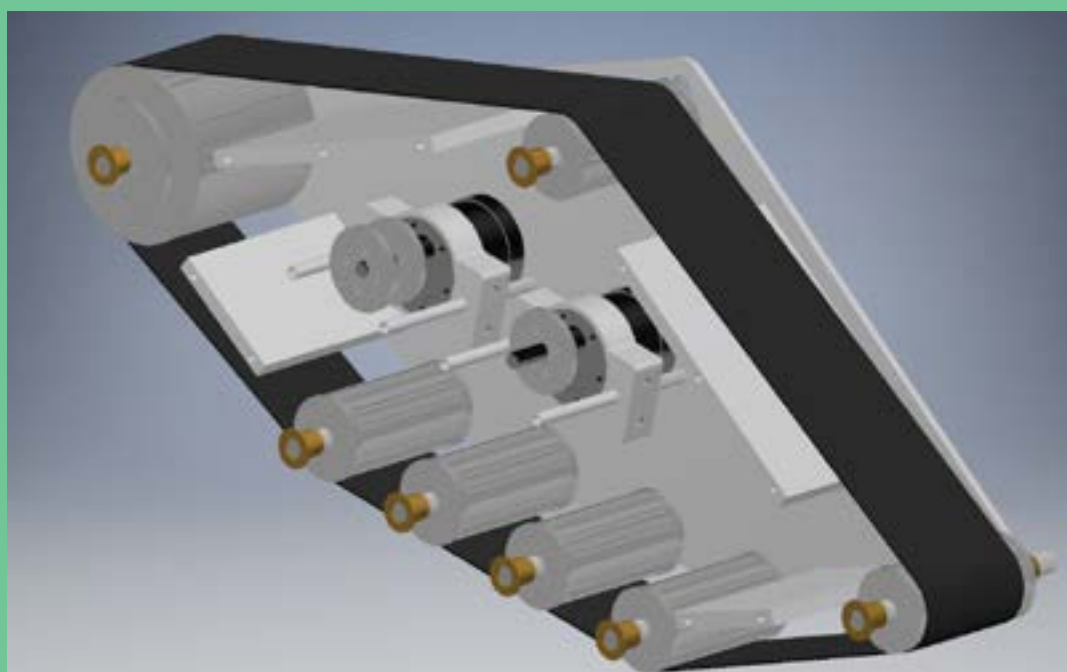

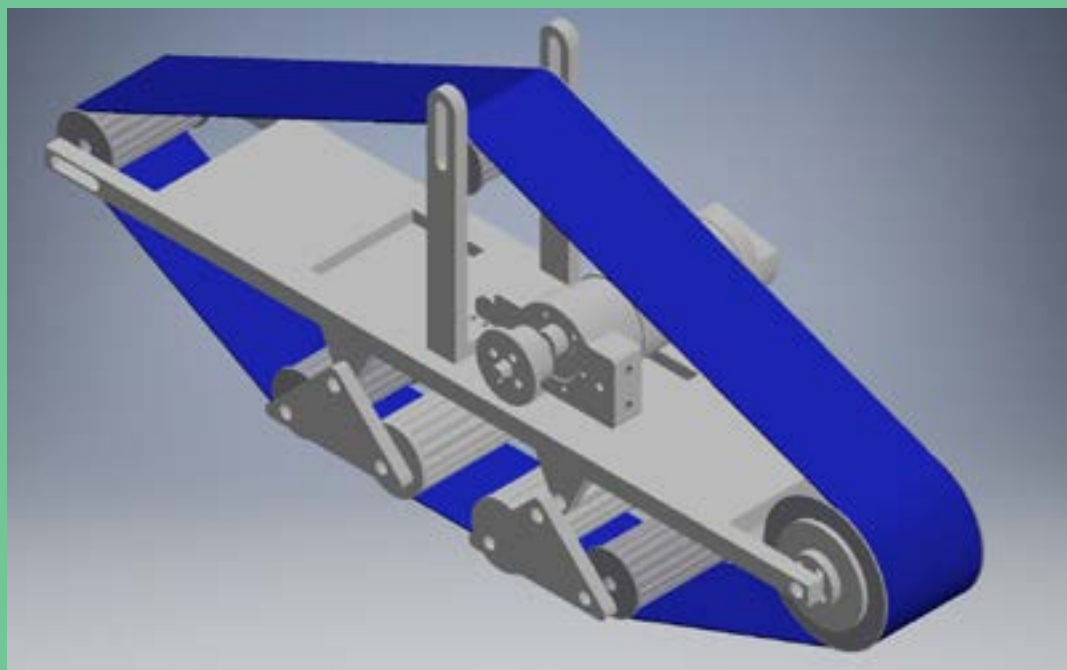

Portfolio Navigation

Use your arrow keys to navigate this portfolio. You can also swipe from the top corners to flip pages
